

NIMRA TANVEER

Goal: Full Stack with AI/ML Models Integration

Contact: 03274355814

Email: nimratanveer077@gmail.com

Portfolio Website : [Portfolio Link](#)

Location: Shadbagh, Lahore, Pakistan

Objective

AI/ML Engineering or Python Development in order to build intelligent, scalable, and data-driven applications or systems that may bring an evolutionary change to the world in certain aspects.

Education

University of the Punjab (Current CGPA – 3.63)

2024 – 2028

BS Computer Science

Skills & Expertise

- **Programming & Development**

- HTML, Tailwind CSS, JavaScript
- Python (Django)
- C++

- **AI / ML Foundations (Learning)**

- Data preprocessing
- API-based model integration

Python for Data Handling
Automation using Python

- **Database Systems**

- MySQL / MariaDB
- SQL Language

- **Tools**

- Git/GitHUB
- Google Docs
- Linux – Basics
- Trello/JIRA

Postman
Oracle Virtual Box
VS Code

- *Front End Skills – HTML , CSS , Basic JS*
- *SQL and Database Systems*
- *Linux Fundamentals*

3. **Cisco Networking Academy**

June 2025

- *Introduction to CyberSecurity*

WHO AM I:

I started my professional journey at the age of 17, and these were my strong communication skills that helped me enter the working environment early.

I have always been driven to do more, fly higher and have that thirst of learning that is beyond explanation. I am looking for such a working environment that would let me grow technically.

----- Thank You -----
